

IBM Intelligent Electronic Patch Panel

Overview

Cross-connection setting by dipswitch Dual contact point sensor (Patent pending) RS-485 communication between panel and controller High impact flame retardant plastic module in. A PCU (Panel Control Unit) is equipped at the front of the patch panels and scans the area in front of each port. Belden PatchPro® offers a complete intelligent ready physical layer management system that uses RFID (radio frequency identification) technology for wireless identification of individual patch cords and real-time monitoring of unintended physical changes in network infrastructure. You can install two SYSTIMAX InstaPATCH 360 patch panels for 96 LC ports in 2U rack space, leaving 2U rack space for cable management. SYSTIMAX 360™ Distribution Module Panels SYSTIMAX 360™ iPatch® Series Panels SYSTIMAX 360™ GigaSPEED X10D® Evolve High Density Shielded Panels SYSTIMAX PATCHMAX® Panels SYSTIMAX 360™ GigaSPEED X10D® PATCHMAX® GS6 Category 6A U/UTP Patch Panel, 24 port SYSTIMAX 360™ GigaSPEED X10D®. MapIT G2 integrates the powerful combination of innovative Smart Patch Panels, user-friendly Master Control Panels and EagleEye™ software to provide real-time tracking and reporting of network-wide physical layer activity.

IBM Intelligent Electronic Patch Panel

Intelligent Patching Systems

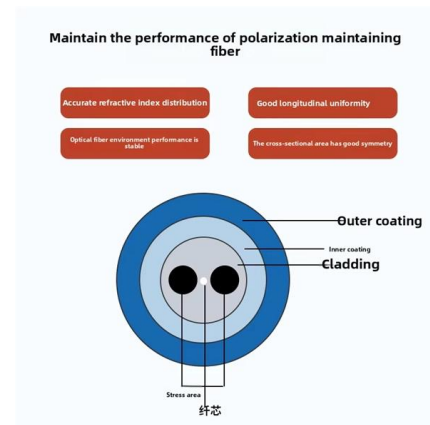

This complete & intelligent-ready physical layer management system uses RFID technology for wireless detection of individual patch cords & real-time monitoring
