

IPTV Fiber Optic Router Setup

Overview

To set up your router for fiber internet quickly, connect the router to your fiber modem, access the router's settings via a web browser, and input the provided ISP credentials. This article will introduce the configuration of the IPTV function and guide you in configuring it on TP-Link Wi-Fi router correctly. IPTV is a system where television services are delivered using the internet protocol suite over a packet-switched network such as a LAN, WAN, or the internet, instead of being delivered through traditional terrestrial, satellite, or cable television formats.
