

Iceland Operations and Maintenance of Optical Core Router SFP

Optical splitter cassette type refers to the port 2.0 mm / 3.0mm slip-on fiber multichannel direct output with a plastic box packaging protection and easy to use.

Optical splitter rack mount type is using metal box packaging which can be installed in 19" frame or cabinet.

Optical splitter LGX box type is ready by flame retardant material box or plate packaging. Mainly suitable for cable points fiber box and wall mounted terminal box.

Optical splitter mini type refers to the port 0.9 mm slip-on fiber multichannel direct output with a compact design and easy to use.
