

# **Indicator lights for ring network industrial switches**

## Overview

---

Indicator lights provide visual signals of machine or operation status and are available in a variety of colors and styles. LED and incandescent units are offered in 24 or 120 VAC/DC ratings, in 16mm, 22mm, or 30mm mounting dimensions. The Lighting and Indication Selection Guide briefly explains Banner's various lighting technologies, and helpful product feature tables make it easy to find the right solution for any application. Our push buttons and signaling devices help to reduce downtime by signaling breakdowns and material shortages as well as alert operators of hazards. This solution builds a basic two-layer network architecture designed to decrease complexity, enhance security, and increase efficiency and operating uptime for your industrial network.
