

Indoor optical module access

Indoor optical module access

ICTCBL2137A Install, maintain and modify customer premises

It applies to installation, maintenance and modification of indoor, external, underground cabling on private and public property. Customer cabling, for the purpose of this standard, may be used to

A Tb/s Indoor Optical Wireless Access System Using VCSEL Arrays

This paper presents a proof-of-concept for Tb/s infrared (IR) indoor optical wireless networks. We introduce a novel double tier access point architecture based on array of arrays of vertical cavity
