

Integrated Distribution Network Automation Company

Overview

We are an independent systems integrator that brings clarity and actionable solutions to optimize material handling and supply chain operations. DLN offers solutions that improve overall operational efficiency – from solving space constraints to supporting new distribution center. With DA communications leveraging intelligent connectivity from Itron, you can plan and operate. Siemens Distribution Automation functionality ranges from monitoring to fully automated applications, including FLISR (fault location, isolation and service restoration), voltage and reactive power compensation and power quality. Our services encompass the selection and implementation of cutting-edge systems like Advanced Distribution Management Systems (ADMS), Distributed Energy Resource Management Systems (DERMS), and Advanced Metering Infrastructure (AMI).

Integrated Distribution Network Automation Company

About Us , JR Automation

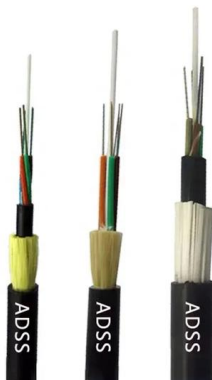

JR Automation specializes in state-of-the-art automated manufacturing and distribution technology solutions. Learn more about our company and what we offer.
