

Intelligent Remote Power Supply and Discharge Distribution Cabinet

Overview

The DTU Intelligent Electrical Control Cabinet is an automated control device designed for power distribution systems. It integrates data acquisition, remote monitoring, fault protection, and communication management into a single unit. [Learn More](#) Designed to provide 50-300 kVA power in small to mid-sized data centers, the Liebert® TFX PDU offers reliable. ABB's configurable Remote Power Panel (RPP) helps to meet the demands of power-intensive applications, delivering unsurpassed power monitoring and distribution in a safe, reliable, space-saving footprint. RackPower Intelligent Power Distribution Units address controlling power on Cabinets as well as Open Frame Racks and Wall-Mount enclosures.

Intelligent Remote Power Supply and Discharge Distribution Cabine

Gowone Smart Intelligent Remote Control PDU Cabinet

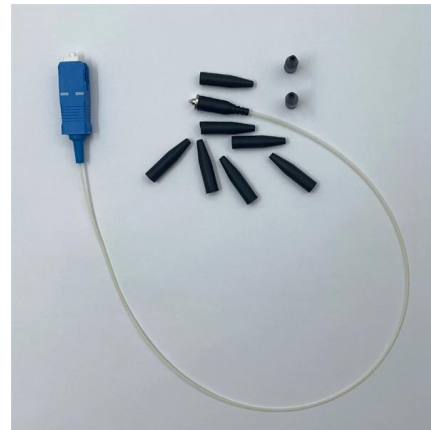

Product name: Intelligent power distribution unit
Product model:P10 Installation way:cabinet
decoration External dimension:485*230*45mm
(bending
