

Iranian supplier of compatible anti-electro-marking network security equipment

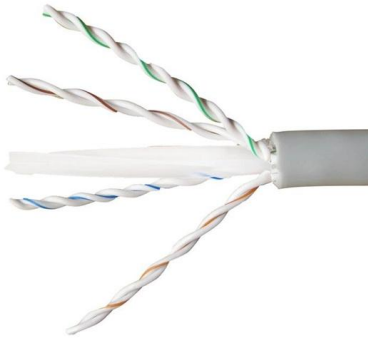

Overview

Iran Electronics Industries (IEI), also known as SAIRAN, is a state-owned Iranian conglomerate established in 1973 as a subsidiary of the Ministry of Defense and Armed Forces Logistics (MODAFL), specializing in the manufacture of electronic components, systems, and equipment. The company specializes in manufacturing advanced surveillance and security systems, including an 8MP Starlight Face Capture IR Bullet Camera with features like face detection and smart monitoring capabilities. This page contains profiles of Iran's suppliers researched and written by the Wisconsin Project. These entities -- persons, companies, governments -- are thought to have supplied technology, equipment, material, or expertise to Iran that would enhance Iran's ability to construct nuclear, chemical. With eight subsidiaries, over one hundred different kinds of Electronic Products and 5200 experienced personnel, of whom 65% are qualified.
