

Is ST pigtail fiber multimode

Overview

This ST pigtail is a cable with high-grade ST fiber optic connector on one end, another end unterminated. Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. For organizations relying on legacy industrial systems or older fiber infrastructure, the ST Multimode Fiber Pigtail (ST-MM) is the ultimate compatibility solution. We stock a wide variety of pigtail fiber types, including single mode and multimode, with all major connector options like SC, LC, ST, and FC available with UPC or APC polish.

Is ST pigtail fiber multimode

ST PIGTAIL

A fiber pigtail is a single, short, usually tight-buffered, optical fiber that has an optical connector pre-installed on one end and a length of exposed fiber at the other end.
