

Jianli Fireproof Cable Tray National Standard Thickness

Overview

According to JB/T 10216-2013 standard, the thickness of steel cable tray with width of 200mm is 1. Product Name: Fireproof cable tray; Application: Cable Laying/Industrial/Construction//Network; Material: Galvanized Steel HDG/Powder Coating/Aluminum/SS304/316; Thickness: 0.8mm-3mm; MOQ: Standard Sizes Supplied; Advantage: Durable/corrosion Resistance/Heat Dissipation; Delivery time: 10-20 Days; Sample: Sample. 1 Cable trays & accessories shall be of two types, namely ladder type and perforated type. Technical particulars are specified in Data Sheet-A and drawings enclosed with this specification. Minor fabrication detail changes which do not affect the material /dimensional aspect of the equipment. , is a welded wire-mesh cable management system made of high-strength steel wire. The mechanical and electrical characteristics, tests, certifications, overall quality management, recommendations mentioned in this technical guide only apply to our own cable management ranges and cannot under any circumstances be transposed to si osure, overheating or.
