

Jordan debugs 25G standalone switch

Jordan debugs 25G standalone switch

Bring on the 25G! : r/homelab

I'm about to decide on a switch for 25Gbps with possibility to upgrade even further so I'm trying to decide between MikroTik CRS510-8XS-2XQ-IN or MikroTik CRS518

UniFi Switch Flex mini 2.5G (stand alone switch ?)

It might work as a unmanaged switch with no controller (haven't tested it or see much info), but you can use the app or setup a controller on a system to setup the device.

10gbe or 25gbe or : r/homelab

25Gbps switches are pretty much limited to MikroTik and QNAP. If you want to go more expensive, there are options from every player, but it is often priced out of homelab.

Advice for switch 10G to 25G+ upgrade / consolidation

Definitely keep the Adder KVM on a separate VLAN at a minimum. If you have to uplink to other switches, consider a 100G trunk if possible. We're doing multiple ports of 25G between switches on

25G switch question

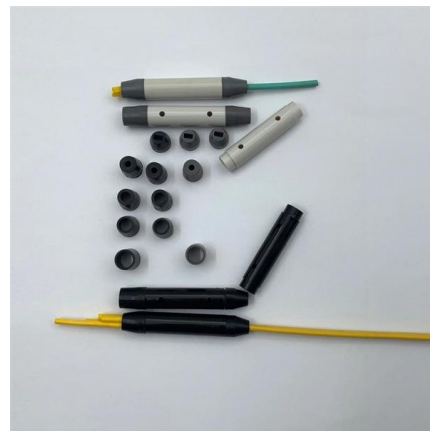

On 4 occasions, I have had the opportunity to do all 25G systems, and I use the QNAP QSW-M5216-1T, and it works great, coming from the QNAP 25G (Mellanox) cards.
