

Kaiyuan Cable Tray Production

Overview

Our advanced cable tray production line is engineered to provide automated forming, punching, and cutting processes for various types of cable trays, including perforated, ladder, and solid-bottom trays. With high precision, fast production speed, and stable performance, it helps manufacturers. The initial processing involves cutting raw steel sheets to precise dimensions using advanced laser cutting or punching equipment. Have you ever wondered how these uniform trough-type cable trays are manufactured efficiently and precisely?

This video takes you through our highly automated cable tray machine production line. Yongchang is a leading manufacturer of GFRP cable tray in China, specializing in the production and development of FRP cable tray, steel cable tray, polymer composite cable tray, epoxy resin composite type tray and polyurethane cable channels.

Kaiyuan Cable Tray Production

Cable Trays Market

Cable Trays Market is segmented By Material Used (Low-carbon Steel, Stainless Steel, Aluminum Alloy, and Fiber Reinforced Plastic) and Product
