

Lay along the entire length of the cable tray

Lay along the entire length of the cable tray

Cable Tray Technical Guide A practical guide to product selection and

Cable tray length is selected based on the load to be supported, the distance between the supports (also referred to as the span), and handling and installation constraints.

[Contact Us](#)

Cable Support Distances

The length between support positions will change depending on the cable design, size, materials and weight. For example, an MDPE sheathed cable will be stiffer and therefore require a greater distance
