

Lclc flexible optical cable

Overview

Each cable is factory terminated and polished to guarantee optimal performance. Packaged individually with test results, it ensures reliability with 100% insertion loss testing. Ceramic ferrules on all connectors enhance durability, while duplex clips provide secure connections. The Lynn Electronics LCLC-10GIG-3M Optilink OM3 Duplex LC/LC Fiber Optic Patch Cable features premium Corning Infinicor SX optical glass for superior signal quality. The FiberShield structure employs three times (3x) the amount of the PVC jacket and DuPont Kevlar to protect the multitude of delicate optical fibers located inside the cables. This guide provides a fully updated and industry-ready overview of LC fiber optics, explaining the origin and design of LC connectors, their key features, and the complete ecosystem of LC-based products used in modern networking.
