

Lighting circuit tripped in the distribution box

Overview

It can occur due to overloaded circuits, short circuits, or ground faults.
Solution: Identify the Cause: Check if the breaker is tripping due to overloading. This event, often called a "light trip," is a sudden interruption of power to a specific section of your home's electrical wiring. If the fuse box in your home keeps tripping, it's a warning that the electrical system has a problem that shouldn't be ignored.

Lighting circuit tripped in the distribution box
