Is converting into internal routing worth it? (aluminum frame) : r

Does "convert to internal routing" equate to drilling holes in your frame? If so, definitely do not do this. The chances of ruining your frame or creating weak points that will crack later on is

too high and your

Internal Bike Cable Routing - What's the Advantage?

With aluminum, titanium and carbon frames, the water won't do any damage and as long as it can drain out, it will only collect and add a little weight for a short period of time. So standing water is bad from
