

Lithuanian High Voltage Busbar Custom Manufacturer

Overview

We specialize in custom-made solid copper conductors and busbars for EV, Hybrid EV and battery systems. Our production includes CNC laser and water-jet cutting, precision machining, polishing and high-quality insulation through PVC dip. Busbars are essential components in electric vehicles (EVs), which are increasingly. Busbar systems are type tested individually, in accordance with the IEC 60439-2 / IEC 61439-6 standards and with the latest valid revision at the independent accredited test laboratories for each current step and for each conductor type. Eaton offers numerous busbar manufacturing technologies, ensuring the right busbar for every application.

Lithuanian High Voltage Busbar Custom Manufacturer

Busbar Manufacturing

At Datum, we specialise in custom, thin metal, busbar manufacturing, delivering precision copper, aluminium, nickel and nickel plated steel busbars for high
