

Lmx distribution box

Overview

The LMX allows for interconnection of up to four local clustered terminals operating at asynchronous data rates up to 64 Kbps. Our flexible distribution boxes enable reliable, decentralised signal transmission and power transmission up to protection class IP67 - wherever passive distribution boxes are required. MULTI Crossmaxx® 3-in-1 SOFT Plyobox (black) is the perfect blend of the LMX1296 Crossmaxx® wooden plyo box and the LMX1297 LMX. This heavy, robust, plyo box offers great stability together with the safety of the more expensive soft plyo boxes.

1 Overview This LMX Series Multiplexor is an efficient, low-cost, bit-interleaved, four-port, asynchronous Time Division Multiplexor (TDM), complete with an integral fourwire limited-distance line driver. We have 1 Black Box LMX Series manual available for free PDF download: [User Manual Black box LMX Series Pdf User Manuals](#).
