

Lr4lite optical module

Overview

QSFP-100G-LRL4 is the Arista part number for a 2 km reduced-power-budget 100GBASE-LR4 client optic, sometimes referenced as LR4 Lite, defined by Arista as a vendor specification rather than an IEEE 802. This MSA compliant QSFP28 transceiver provides 100GBase-LR4 throughput up to 2km over single-mode fiber (SMF) using a wavelength of 1295nm to 1309nm via an LC connector. It is built to MSA standards and is uniquely serialized and data-traffic and application tested to ensure that they will. QSFP-100G-LR4LITE-DE-C - Transceiver Module Networking, General Purpose 100Gbps 1310nm 3. Pricing and Availability on millions of electronic components from Digi-Key Electronics. FTL4C1QL2L QSFP+ transceiver modules are compliant with the QSFP+ MSA2 and are compatible with IEEE 802. Digital diagnostics functions are available via an I2C interface, as specified by the QSFP+ MSA.
