

New MTP connectors available now

Overview

All MTP connectors on EDGE™, EDGE8® and Plug & Play™ assemblies are currently upgraded to contain a new connector with push/pull boot to facilitate easier product handling. The new MTP connector will combine CleanAdvantage™ features with easy field polarity and pinning change and the new push/pull. While fully compliant with MPO intermateability standards, US Conec's novel patented features, enhanced precision and proven reliability ensure that MTP® brand connectors far exceed the. * With no special skills or training required, you can easily perform polarity and pin reconfiguration in the field without removing the.

New MTP connectors available now

New MTP® Pro Push/Pull Connector now Available on All EDGE

All MTP connectors on EDGE(TM), EDGE8® and Plug & Play(TM) assemblies are currently upgraded to contain a new connector with push/pull boot to facilitate easier product handling.

New MTP-16(TM) Multi-fiber Optical Connector Supports

This new keying design, currently being standardized by TIA 604-18 (FOCIS 18) and IEC (61754-7-3), ensures proper mating of the MTP-16(TM) connector without

MTP® Connectors

The MTP® connector design offers novel patented features, enhanced precision, proven reliability, and significant performance improvements compared to the standard MPO connector format.

MTP® SOLUTIONS

The new universal MTP® hardware package simplifies production and reduces inventory by harmonizing the internal spring, spring push, and crimp band component geometries.
