

ODM Air-Cooled Switch SFP

Overview

1x 100/1000F (x) SFP Slot, support either Multi-Mode or Single-Mode SFP speed selectable (100 or 1G) PD alive (enable by DIP switch) Link fail pass-through function Built for harsh environments and wide temperature range application IP30 housing DIN-Rail Mounting, Optional. The NVIDIA MMS4X00-NM16 is an Ethernet 800Gb/s, Twin-port OSFP, DR8 single mode, parallel, 8-channel transceiver using a single 8-channel MPO-16/APC optical connectors at 800Gb/s. Sailsky SY-24G2SP is 26 Gigabit Ethernet Power Switches (POE switches), high-quality network IC and the most stable POE chips, POE switches provide seamless connection to 10 / 100 / 1000 M Ethernet, and the POE supply port can automatically detect and supply receiving devices meeting IEEE802. This manufacturer mainly exports to the United States, Germany, and France, offers design-based customization services, and is an OEM for well-known brands. Still deciding?

Get samples first! Order sample PDnet has over 20 years of history in Shenzhen, China. OEM ODM SFP transceiver SFP Module for fiber patch cord manufacture RJ45 SFP+ SFP28 QSFP+ QSFP transceiver The FIBCONET SFP+ modules give you a wide variety of Gigabit Ethernet connectivity options for data center, enterprise wiring closet, and service provider transport applications.

ODM Air-Cooled Switch SFP

可选配件

OSFP Thermal Form Factors Explained: Finned Top, Closed Top, and

Finned Top OSFP-IHS works well in traditional air-cooled switches with strong, uniform airflow. Closed Top OSFP-IHS is preferred in high-density switches where airflow control and predictability are critical.
