

Optical Core Cable Machine

Overview

Key optical fiber manufacturing equipment includes drawing towers for creating the fiber, coloring and buffering lines for protection and identification, stranding machines (like SZ stranding lines) to assemble the cable core, and jacketing lines to apply the final protective. BM-Rosendahl is the global supplier of production equipment for lead-acid and lithium-ion batteries. What Key Machines Do You Need for Fiber Optic Cable Production?

Deliver high-quality fiber-optic cables with 4 core machines—coloring, coating, SZ stranding & sheathing. With over a decade of experience in the industry, we have established ourselves as a reliable and innovative provider of high-quality equipment to clients worldwide. Superior bearings and frames, coupled with an innovative low-tension process, ensure no project is too difficult or too sensitive to accomplish—even those involving bend-sensitive and multimode fiber.

Optical Core Cable Machine

Fiber Optic Equipment , Tensor Machinery Ltd.

For over 30 years, Tensor has been a premier supplier of fiber optic equipment--offering complete cable manufacturing solutions.
