

# **Outdoor Rainproof Distribution Box Design**

## Overview

---

The outdoor rainproof distribution box comprises a rectangular casing, a box door and a rainproof cover, wherein a flange is arranged to extend from the circumferential edge of the box door towards the inner side, a seam allowance flanging which is disposed at the inner side of the. (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65–IP68 sealing against dust, rain, and UV. Key design points include high-quality materials like ABS plastic, aluminum, and stainless steel that resist corrosion and UV. They are widely utilized in various fields, including solar energy photovoltaic systems, outdoor lighting installations. Our outdoor electrical enclosures are designed to provide robust protection for electrical components in outdoor environments.

## Outdoor Rainproof Distribution Box Design
