

PoE monitoring broadband switch

Overview

View the switch-specific insights for Power over Ethernet (PoE) ports, power draw, and consumption trends. Monitors PoE consumption against allocated PoE budgets to determine which ports are drawing more power than anticipated. It also monitors the power summary of switches supplying PoE, which provides information such as a switch's power budget, used power, remaining power, and power usage. To address these challenges, EtherWAN offers the Smart PoE Watchdog — an intelligent, self-healing feature that keeps network devices online and operational 24/7.

PoE monitoring broadband switch

Ubiquiti PoE Switches

Ubiquiti PoE Switches broadbandbuyer offers a range of Power over Ethernet (PoE) switches that enable you to provide power to compatible PoE devices directly from the switch via the Ethernet
