

Polish Telecom Fiber Optic Cable Maintenance

Overview

Maintenance and Upkeep: Regular maintenance and upkeep of the system including cleaning, technical status checks, and any necessary repairs, cost calculated based on a service contract, for example, from 200 PLN per month. We provide maintenance services for 6000 km of optical fiber network systems. On an annual basis we professionally execute over 2000 projects. We are a Polish based company and are a part of the Vinci group, providing services in the. BOB Fiber Optic Technique (BOBTS) specializes in advanced medical equipment, highlighting their expertise in fiber optic technology. If cables are secured and fiber optic, HFC or LAN cabling is regularly maintained, failures occur less often. We help companies and operators save money and resources by keeping records of all network elements, their location and condition. MegaTelecom Company provides high-quality services in the field of design, construction, supervision, maintenance and modernization of all types of fiber optics networks in inside and outside Poland in a precise manner and wide range of services.
