

Polish stainless steel distribution box dimensions

Overview

They can be single (standard in the width of 1000 mm) or double, right or left with one lip lock combi- on request EMKA D5 or EMKA butterfly lock on a "fab" key (there are two locks of this kind from the height of 500 mm). BARTEC stainless steel housings and distribution boxes are designed and approved for Zone 1 and 2 as well as Zone 21 and 22. They are particularly suitable for applications under extreme environmental conditions, and they provide reliable protection under heavy loads. PEFLEX custom-made distribution boxes allow precise adaptation to the specific requirements of each ventilation installation. Can be equipped with pre-wired socket strips (SCHUKO, CEE 16A 5 p 400V, CEE 16A 3 p 230V).
