

Price for installing network modules and connecting them to server racks

Overview

And here's the bottom line: whether you DIY your network or outsource the job, a typical 24-port small business network will cost you around \$6,120 to set up in 2026. This includes standard networking hardware, wi-fi and some basic construction supplies. This guide will explore the cost breakdown for rack and stack solutions, factors that influence. When planning a network upgrade or new installation, one of the first questions businesses ask is: How much will it cost?

In 2024, the landscape of network installation is evolving, and understanding the costs involved can seem daunting. Wireless solutions offer convenience, but Ethernet delivers consistent bandwidth, low latency, and enhanced security—especially in mission-critical environments.
