

Price of 1 km buried optical cable 6

Overview

Armored fiber optic cables designed for direct burial cost \$6-14 per linear foot. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. The cost of fiber optic cable per kilometer can vary significantly based on a variety of factors, including the type of fiber optic cable, the geographical region, the installation environment, and the specific requirements of the project. This guide outlines the main cost components, estimates, and budget ranges to help plan a fiber backbone project. With performance of resisting external mechanical damage and soil erosion, it can be directly buried in the ground.
