

Removing the laser diode

Removing the laser diode

Laser diode to remove copper layer from PCB

I want to replace the cutting bit with laser diode to ablate copper layer directly to ablate acid resistant paint so I would overcome the issues I mentioned.

How deeply do you clean your laser module.

I'd recommend using "canned air" to clean your laser module, taking care not to spin up the fan. I never use anything else to blow out a computer unless it has ten mice living in it.
