

Roof cable tray fixing frame

Overview

The frame is constructed using three 1-metre long, 41mm slotted strut channels and heavy-duty rubber feet for a non-penetrative, secure base. The PHP Cable Tray Support is designed for cable systems of various widths at most specified heights above the roof surface. Layout isolation pads, (provided by contractor), according to the design and layout. When developing our cable support OBO can offer reliable solutions for systems, three attributes are at the routing and fastening cables securely core of what we do: efficiency, resilience for each of these installation challenges and safety. The Unipier Rooftop Pipe Support System from Unistrut offers a full line of supports for conduit, gas and mechanical piping, HVAC ducts, equipment, walkways, and more.
