

FRINDEL OPTICS

Saudi Arabian fiber optic temperature measurement cable manufacturer

Overview

(MEFC) is a Saudi-Japanese (Fujikura) partnership located in Riyadh, Saudi Arabia. MEFC has established itself as the leader in manufacturing fiber optic cables, and solution provider for the telecommunications and industrial sectors in MENA. Fiber optic temperature sensors are deployed across 380 kV and 132 kV substations to monitor transformer windings, cable joints, and GIS equipment in real time, preventing catastrophic failures in the extreme heat of the Arabian Peninsula. Their production capacity allows them to handle the massive volume requirements of the Saudi Electricity Company (SEC) and STC.
