An Armored Fiber Optic Logging Cable

An ultralow stretch armored cable containing 3 optical fibers and 8 electrical conductors has been developed for use in oil well logging operations. A mating cablehead termination, optical transmitter

Hybrid Electro-Optical Cable for Coiled Tubing Logging and

Abstract. This study presents the evolution of downhole fiber optics to a new hybrid electro-optical cable for coiled tubing (CT) applications. The optical fibers enable optical

[Contact Us](#)

Vertical seismic optical profiling on wireline logging cable

Vertical seismic profiles are usually acquired by deploying downhole seismic sensors below a wireline logging cable. A seismic source is triggered at surface while recording the downhole vibration via the

White Paper on China International Optical Cable Interconnection

Submarine optical cables from China can directly connect to North America, coastal Asia, Europe, and Africa, and China has implemented direct network interconnection with key countries such as the US,

[Contact Us](#)

Optical fiber logging cable Special cable

Optical fiber logging cable enables the transmission of detailed data over long distances, making it an essential component in oilfield service operations. Overall, the use of optical fiber
