

Slovakian technical support for LPO optical modules DML

Slovakian technical support for LPO optical modules DML

Linear Pluggable Optics (LPO) Europe , EU-Tested 400G/800G Modules

Linear Pluggable Optics (LPO) replace the DSP inside the optical module with linear analog components, shifting signal processing to the host ASIC. This innovation delivers up to 30% lower

Types of Optics

Unlike traditional fully retimed optical modules, LPO transceivers depend on the host to handle retiming and signal conditioning. By omitting the DSP, LPO achieves lower power consumption and higher

FAQs

A: Yes, the specifications will ensure that any LPO MSA-compliant port on a switch or NIC (or other network equipment) will work with any LPO MSA-compliant module.
