What is a LAN? Local Area Network

A local area network or LAN is comprised of cables, access points, switches, routers and other components that when connected in an office building, school or home

[Contact Us](#)

MikroTik · Switches

MikroTik makes networking hardware and software, which is used in nearly all countries of the world. Our mission is to make existing Internet technologies

802.3az-2010

802.3az-2010 - IEEE Standard for Information technology-- Local and metropolitan area networks-- Specific requirements-- Part 3: CSMA/CD Access Method and Physical Layer Specifications

[Contact Us](#)

802.11ax-2021

Scope: The scope of this standard is to define one medium access control (MAC) and several physical layer (PHY) specifications for wireless connectivity for fixed, portable, and moving

[Contact Us](#)

IEEE Std 802.11ax -2021, IEEE Standard for Information Technology

IEEE Std 802.11axTM-2021 (Amendment to IEEE Std 802.11TM-2020) IEEE Standard for Information Technology-- Telecommunications and Information Exchange between Systems Local and

[Contact Us](#)

Guidelines for Securing Wireless Local Area Networks (WLANs)

A wireless local area network (WLAN) is a group of wireless networking devices within a limited geographic area, such as an office building, that exchange data through radio

[Contact Us](#)

IEEE802

The IEEE 802 LAN/MAN Standards Committee (LMSC) develops and maintains networking standards and recommended practices for local, metropolitan, and other area networks,

[Contact Us](#)

Different Types of Network Switches

One of the primary uses of network switches in small businesses is to create local area networks (LANs). LANs are widely used to connect multiple devices within

[Contact Us](#)

5320 , Extreme Networks

Available in 16, 24, and 48 port models, the 5320 delivers secure, efficient connectivity across edge and wiring closet deployments while supporting 30W

[Contact Us](#)

802.11-2016

Technical corrections and clarifications to IEEE Std 802.11 for wireless local area networks (WLANs) as well as enhancements to the existing medium access control (MAC) and
