

Specifications of power distribution boxes in Belgian power plants

Specifications of power distribution boxes in Belgian power plants

Part 1

Explore the general requirements for low and very low voltage electrical installations in Belgium, ensuring optimal compliance and safety.

SPECIFIC TECHNICAL PRESCRIPTIONS REGARDING POWER

The DSO will regard the power-generating unit as a regular power-generating plant without applying the exceptional measures that normally apply to a backup power system.

[Contact Us](#)

Distribution boxes

A distribution board is a central component of any electrical system. It safely distributes electricity across multiple circuits in a building, construction site or industrial facility.
