

# **Sri Lanka ADSS optical cable 12 cores**

## Overview

---

This specification covers the construction all dielectric self-supporting Optical Fiber Cable (ADSS) properties for outdoor application. The optical fiber cable contains 12 cores (6cores/tube) single mode ITU-T G. AFL-ADSS® (All-Dielectric Self-Supporting) fiber optic cable is a non-metallic cable which supports its own weight without the use of lashing wires or messenger cables. Click to explore trusted manufacturers and suppliers for your project needs in 2026. ADSS fiber cable is used by electrical utility companies as a communications medium, installed along existing overhead. The tube is wrapped with a layer of water-blocking material is applied to keep the cable from waterkevlar.

## Sri Lanka ADSS optical cable 12 cores

---

### 12 core adss optical fiber cable

The 12 core configuration of this ADSS optical fiber cable provides an ideal balance between capacity and cost-effectiveness. Each core supports multiple wavelengths for data transmission, enabling the
