

Standard dimensions of concealed electrical boxes

Overview

Typical wall-mount enclosure sizes often range from about 200 × 200 × 120 mm up to 800 × 600 × 300 mm. Freestanding cabinets commonly range from about 1600–2200 mm in height, 600–1800 mm in width, and 300–600 mm in depth. Electrical box dimensions typically refer to: Correct dimensions ensure: Single-gang boxes are the most common type, used for one switch or outlet. Choosing the correct electrical box size is essential for safety, compliance, and proper installation. Choosing the proper enclosure requires fluency in the language of gangs, physical footprint, and—most importantly— internal.
