

# **Standard number for stainless steel electrical distribution boxes**

## Overview

---

The primary material used in our featured distribution box is Type 201 or 304 Stainless Steel. This grade is renowned for its excellent corrosion resistance, strength, and durability, making it ideal for both indoor and outdoor applications. 4404, AISI 316L) and are extremely robust: High-quality seal materials make them suitable for an extended temperature range, while a circumferential protection channel prevents. 16 Boxes for Electrical Systems - Guide Spec EATON CROUSE-HINDS SERIES GUIDE SPECIFICATION Section 26 05 33. Polycase's stainless steel electrical boxes are UL Listed to UL 508A, meeting NEMA 1, 2, 4, 4X and 12 ratings and IP65 and IP66 requirements for harsh environments.
