

Standards for Building Floors in Communication Equipment Rooms

Standards for Building Floors in Communication Equipment Rooms

Specifications for Networking Standards

This document is intended to act as guidance for the installation of a Communications Rooms required to support the network infrastructure for Loughborough University.

Length:14.5mm
Small-end inner diameter:2.0mm
Large-end inner diameter:3.5mm
Outer diameter:5.2mm

Requirements for the Design of ICT rooms

ICT rooms need to be optimally located in the building complex. In addition to the size of the rooms, one must consider factors related to cable security, fire resistance, noise, heating, electrical fields,
