

Status of Main Optical Cable Construction Project

Overview

Tokyo, Japan, 18 July, 2025 – The SJC2 consortium (*1) announced today with NEC Corporation (NEC; TSE: 6701) the completion of construction and the start of operations for the Southeast Asia-Japan Cable 2 (SJC2), a high-capacity optical submarine cable connecting the Asia region. ♦ Specifically, we have developed a lineup of technologies for automatic rotation alignment connection of MCFs, interconnection and branching technology between MCFs and existing optical fibers, connection and branching technology between MCFs and existing optical cables, and in-station MCFs. The nationwide fibre rollout is crucial for Germany's competitiveness and digital progress. In mid-2024, only 23 percent of households were connected to the fibre network (homes connected), and only 11 percent had booked a fibre connection. The charter of the FOA was to promote professionalism in fiber optics through education, certification, and. HFCL Limited has signed a historic five-year agreement valued at ₹10,159 crore (\$1. The contract, running from 2026 to 2030, includes an automatic extension clause and solidifies HFCL's standing in the.
