

Substation Integrated Fiber Optic Distribution Cabinet

Overview

Incorporating Clearfield's philosophy of modularity and flexibility, the FieldSmart ® Fiber Distribution Hub (FDH) sets the bar for fiber access, protection and density among outside plant fiber cabinets for PON, cross-connect or hub collapse environments. Efficiently manage your network with our reliable fiber optic distribution cabinet solutions. Products are designed by our professional R&D team to meet the customized needs of customers. The FIU2117/FTU2114 can be installed in 19 inch or 21 inch integrated cabinets with depth greater than or equal to 300 mm to implement fiber termination, or integrated fiber splicing and termination. The FIU2117/FTU2114 series products include FIU2117-48-SC/APC, FTU2114-48-SC/APC. The comprehensive range includes Cable Distribution Racks (CDR) and Next Generation Racks (NGR), designed to fulfill the diverse needs of the typical data center operator.

Substation Integrated Fiber Optic Distribution Cabinet

Fiber Communication in Substations Case Study

Its telecommunications network connects over 1,000 substations, generation plants and other key sites to its primary and backup control centers and utilizes a variety of networking technologies. A key part
