

Sudan ONU Optical Network Unit QSFP28

Overview

This product is a transceiver module designed for 10km optical communication applications. Below, you will find comprehensive module comparisons, realistic market pricing, and precise vendor compatibility protocols to ensure a. Range Superxon 50G ONU transceivers, compliant with QSFP28 MSA, support single-fiber bi-directional data links with asymmetric TX and RX rates: 24. Digital diagnostics functions are available via the I2C interface, as specified by the QSFP28 MSA1.
