

TNS optical module

TNS optical module

Resources , TNS Technologies Networking Solutions

Explore datasheets, technical documents, and product resources from TNS Technologies to support telecom and infrastructure projects across UAE & GCC.

[Contact Us](#)

Optics and Transceivers , Fiber Optical Transceivers

The fiber optic transceiver modules can work in any network architecture through professional capabilities and in-house lab test. Click to get your transceiver

Optical Transceivers: How to Choose the Right Module

The following article will describe the important types of optical transceivers, so you will know which optical transceiver module fits the needs of your unique network

Tns2n220 20 X 10 Gbit/s Line Service Processing Board Optical

TNS2N220 20 x 10 Gbit/s Line Service Processing Board Optical Transmission OTN OSN9800 U16/U32/U64/M24

Optical Transceivers: How to Choose the Right Module

Optical transceivers module, including 1G SFP, 10G SFP+, SFP28, 40G QSFP+, 100G QSFP28 and more, enable fast, reliable, scalable, and cost-effective

Welcome to TNS Technologies Ltd.

Now, most of data centers are still deployed 10G Ethernet, and the development of optical module is from the larger XFP optical module gradually developed into the current mainstream SFP + optical

A Timing, Trigger, and Control System With

Picosecond Precision

The Large Hadron Collider (LHC) experiments will have their timing, trigger, and control (TTC) system upgraded as a consequence of the need for higher bandwidth and components which are obsolete.

- CONVENIENT OPERATION & MAINTENANCE
- PRE-WIRED

TNS7N502 2 ports 200G/100G Line Board Price Specs, Huawei OSN

TNS7N502 2-port 200G/100G line service processing board. Apply to OSN 9800 U64, OSN 9800 U32, OSN 9800 U16 and OSN 9800 M24, it supports relay mode and line mode. The N502 is a hybrid line
