

# Top 10 AI Server Manufacturers

## Overview

---

(US), Hewlett Packard Enterprise Development LP (US), Lenovo (Hong Kong), Huawei Technologies Co. According to a research report published by Spherical Insights & Consulting, the Global AI Server Market Size is projected to grow from USD 142. Artificial Intelligence (AI) server manufacturers have experienced surging demand as data center operators require significantly more computing power than before the advent of ChatGPT and other Generative Artificial Intelligence (Gen AI) tools. While semiconductor giants like NVIDIA and AMD develop the hardware that powers AI servers, specialized AI companies like TensorWave, Lambda Labs, and Cerebras Systems are redefining AI and HPC performance with custom-built servers. Enterprises are seeking solutions that can handle complex workloads, from machine learning training to real-time inference. This comprehensive guide moves beyond a simple list, offering procurement managers and enterprise buyers actionable insights into the entire.
