

Traffic Rail-Mounted Industrial-Grade Switch

Overview

Unmanaged Industrial Switch, DIN-rail, 4x10/100/1000Base-T RJ45 ports + 1x10/100/1000Base-T RJ45 uplink port, IP40 protection level, compact design, -40 ~ +75°C operating temperature, 12~58VDC redundant power inputs. With robust, reliable, secure networking and low-latency, high-bandwidth communications, Cisco® DIN rail industrial switches help build the infrastructure necessary to support AI applications and accelerate innovation in demanding environments. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. Home Products and Solutions InterConnect Switches Products Industrial Switches IE Series Switches H3C IE4320 Din-rail Industry Ethernet Switches H3C Industrial Ethernet 4320 switch series is H3C's latest industrial Ethernet switches designed for rugged environment and wide operating temperature. Certified for traffic control such as NEMA-TS2 Section 2 and wayside control standards. The DIS switches are designed to easily handle hot and cold temperature variances,* and can cold start at their coldest temperatures.

Traffic Rail-Mounted Industrial-Grade Switch

Managed Industrial Ethernet Switches

This managed industrial switch provides 10 RJ-45 GigE and 2 SFP fiber ports in an industrial grade network switch. The FP2008E is a DIN rail Ethernet switch with
