

Type 21 Level 1 Electrical Distribution Box

Overview

The XL-21 Power Distribution Box is used for power distribution, conversion, transmission, control, and on-site operations in low-voltage distribution systems. The main distribution box adopts self-design of new components, compact structure, beautiful appearance, easy maintenance, a variety of wiring options. Fulleto Electric manufactures the robust XL-21 low-voltage power distribution box. Rated for 380V 800A, it offers superior dustproof protection and safety for industrial use. It is widely applied in power plants, substations, petroleum, chemical, metallurgy, machinery, and high-rise buildings. Busbar Type (M Type): This version features a cabinet height of 1900mm or more, with a removable cover on.
