

# **UK Micro-Module Data Center Pricing**

## Overview

---

Building a data centre in the UK typically ranges from £625 to £1,135 per gross square foot, with average construction costs around £1,200 per square foot. However, specific expenses can vary significantly due to factors such as location, design specifications, and tier rating. Accelerate AI data center deployment with a prefabricated modular pod—factory-built with power and cooling for scalable, high-density IT infrastructure. Northstar Enterprise + Defense offer solutions with speed, performance and security in mind (Credit: Northstar Enterprise + Defense) Northstar Enterprise + Defence delivers turnkey solutions for AI/ML, enterprise, telecoms, defence and government applications, with a specialised focus on modular. Input your rough IT infrastructure requirements using our easy-to-use calculator, to get a quote for the best modular data centre solution suited to your data centre expansion needs. Which modular style do you require?

How many racks do you require?

A modular solution allows your organisation to.

## UK Micro-Module Data Center Pricing

---

### The Intelligent Micro Module, the Element of Intelligent

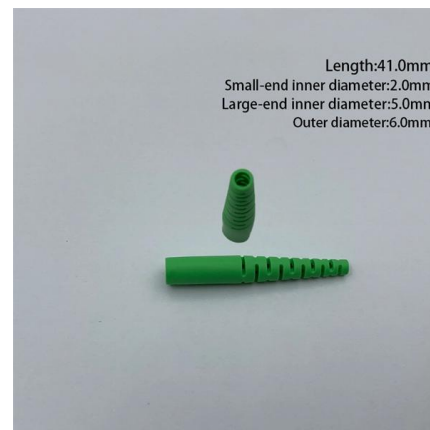

The Intelligent Micro Module can provide simultaneous, efficient operations in order to provide the best green data center, the best asset management, and optimum
