

# **Ukraine Base Station Energy Solution 100kW Solution**

## Overview

---

This project deploys a 100kW/261kWh energy storage system (ESS) to create an integrated solar-storage-charging solution, enabling smart, efficient, and green EV charging operations. At its core, this solution is built on a high-performance C&I hybrid inverter platform, integrating PV generation, battery storage, diesel generators, and grid interaction into a unified energy system. HITEK ENERGY has successfully implemented a comprehensive renewable solar energy solution for a manufacturing facility in Ukraine. • Large Energy Storage: BOS-B battery delivers 215kWh per cluster, supporting up to 16 packs per PCS.
