

Waterproof pigtail for base stations

Overview

Waterproof fiber optic patch cords are ideal for CPRI applications and widely used in 4G, 5 G, and WiMAX base stations, Long Term Evolution (LTE) and Remote Radio Units to FTTA connectivities. Waterproof Pigtaills are engineered for outdoor, harsh-environment, and industrial applications requiring weather-resistant fiber termination. FiberMania manufactures these pigtaills with IP-rated waterproof connectors, UV-resistant jackets, and precision-built fibers to ensure stable performance.
