

West Africa Telecom Router Fiber Optic Light Not On

Overview

Check and ensure that both the CPE/ONT and the router are properly connected to the power mains and switched on.)This article offers an introduction to troubleshooting common Fibre internet problems. Different service providers in South Africa use slightly different ONT models, but the basic. Once you are connected to the router (via WiFi or Ethernet cable), you will need to access the router's interface using your web browser (Edge, Firefox, or Chrome). Click on your browser's search/URL bar and type in the Default IP Address of your router.
